Cherryvale Zinc Company, Inc.,  
a New York corporation,

AGREEMENT, made this 28th day of August, 1953, by and between J. B. Kirk of Iola, Kansas, party of the first part, hereinafter called "Kirk" and Cherryvale Zinc Company, Inc., a New York corporation with an office at Cherryvale, Kansas, party of the second part, hereinafter called "Cherryvale",

WITNESSETH:

Reference is made to Exhibit "A" attached hereto for a description of five cinder residue dumps located in Allen County, Kansas, in the vicinity of the City of Iola. For purposes of identification, said dumps are numbered One, Three, Four, Five and Seven, respectively. The cinder residue may be valuable for the extraction of minerals, including zinc, lead, germanium, and possibly other metals.

Kirk represents that he holds Leases covering the lands upon which said dumps are located, and Kirk warrants that as lessee, he has a valid right subsisting during the term of this Agreement, to sell and deliver to Cherryvale the residue contained therein. Reference is made to the Lease by Howard L. Nelson and Milton A. Nelson, recorded in Book M-52 at page 95 of the records of the Register of Deeds of Allen County, Kansas, and to the Lease by The J. B. Kirk Gas and Smelting Company, recorded in Book M-52 at page 105 of said records, and operations under this Agreement shall be subject to the terms of said Leases.

Concurrently with the execution of this Agreement, Cherryvale agrees to pay Kirk the sum of Five Hundred Dollars (\$500.00), the receipt and sufficiency whereof is hereby acknowledged. In consideration of said payment, Kirk grants to Cherryvale for a period of six (6) months from the date of this Agreement, the right to remove five hundred (500) tons of cinder residue from dump number One, said residue to become the property of Cherryvale. Kirk also grants to Cherryvale the right to enter upon the premises and to sample the residues contained in any or all of the dumps herein referred to. It is the intention of Cherryvale within the period of six (6) months from the date of this Agreement to analyze and experiment with the five hundred (500) tons of cinder residue to be removed from the premises, and to sample the other dumps, for the purpose of determining whether it is economically feasible to remove and process the cinder residue, or any part thereof. Kirk agrees to make available to Cherryvale all maps and data which he has in his possession or may discover in his storage files pertaining to the various dumps and the mineral content thereof. Cherryvale agrees, upon request by Kirk, to advise him in the analyses of residue samples taken from said dumps and to inform him of Cherryvale's estimate of the number of tons of residue which could be removed from the dumps under the terms of this Agreement.

---23 continued.

In further consideration of the payment above specified, Kirk grants to Cherryvale the right to purchase the cinder residue contained in any one or more, or all, of the dumps described in Exhibit "A" by giving notice in writing to Kirk on or before six (6) months from the date of this Agreement of Cherryvale's intention to purchase. Said option shall extend to each of the five dumps separately, and in the event that said option is exercised as to any particular dump, Cherryvale shall be obligated to purchase all of the cinder residue contained in said dump which can, in the judgment of Cherryvale, be conveniently and economically removed for the purpose intended. Said notice may be given to Kirk personally or mailed to Kirk at 2 West Buchanan Street, Iola, Kansas.

In the event Cherryvale exercises said option to purchase, Cherryvale shall have one year from the date said notice is delivered to Kirk within which to enter upon the premises and remove the cinder residue, using so much of the surface of the premises as shall be necessary or convenient, and for said purpose Cherryvale shall have the right of ingress and egress over and upon any lands owned or leased by Kirk adjacent to a particular dump. Cherryvale shall make settlements for cinder residue so removed within fifteen (15) days following the close of each calendar month on the basis of One Dollar (\$1.00) per ton for cinder residue actually removed, weights to be adjusted for dry tonnage. It is understood by the parties that said sum of One Dollar (\$1.00) per ton shall be the full purchase price to be paid by Cherryvale for said cinder residue. Kirk agrees to make the payments to the lessors specified in the Leases above referred to. In event of failure to Kirk to make such payments, Cherryvale may make such payments, deducting the amount thereof from sums payable to Kirk hereunder. Cherryvale shall not be required to dispose of any overburden or waste material resulting from removal operations, or to back fill any pit or depression resulting therefrom.

This Agreement and option shall be binding upon and extend to the parties and their heirs, successors and assigns, respectively.
